Just once a year for everybody to get together—Weren't you glad you came last year and saw those wonderful operations performed on the float by Dr. Rakestraw? Didn't you laugh and laugh? Of course, you did—everybody did. And we are going to see something just as funny on the second birthday, July the 6th.

Every man, woman and child in both country and town are coming together to see the beautiful parade, hear the brass band, make a bid on the birthday cake, to contribute a birthday gift, to eat the daintiest sandwiches Abbeville girls can prepare, and last but not least, to enjoy the vaudeville at the Opera House. It will be get-together afternoon to boot. Abbeville County Memorial Hospital.

DEADLOCK BROKEN IN CONFERENCE

Washington, June 27.—The deadlock on the bill to create a score or more of federal judges was broken today by agreement of the senate and house conferees to give an additional federal judge to the New Jersey, New Mexico, eastern Illinois and the middle Tennessee districts. CROWING HEN

Eugene Paul, who works on Mr. Henry Powers' place, was in town today with thirteen chickens, twelve frying size and one hen. He had disposed of the twelve young chickens and was trying to induce a customer to take the hen. He said she was laying an egg every day and still he couldn't sell her, and when asked the reason for selling a hen that was laying an egg every day, he said she was beginning to crow and it was bad luck to keep a crowing hen, and he just had to get rid of her.

With reference to crowing hens S. G. Thomson, Jr., of the Peoples Bank vouches for the statement that within the last week a hen at the home of his father, Dr. S. G. Thomson, began to crow, and one in his own yard. The one from his own yard went immediately into the pot, and tasted just like a chicken, he says.

A rooster laid an egg in the Agricultural Hall of London, it is claimed. Pretty soon they will have crowing hens and the erstwhile proud roosters cackling.—Charleston News and Courier.

THE BOLL WEEVIL MAKES IT NECESSARY TO LOOK TO OTHER SOURCES FOR MONEY WITH WHICH TO PAY DEBTS.

THE ONE BIG QUESTION IS

Where shall we look?

Parties with capital are interested in establishing in Abbeville a Potato Curing House, an Onion Drying House, A Creamery and Cold Storage Plant.

None of these things succeed without the cooperation of the people of the vicinity. Do the people of Abbeville need these enterprises? If they do a rare opportunity is offered them.

Parties who are interested in securing these enterprises for Abbeville and who are willing to make small investments in the stock of a company
